Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**on common provisions for monitoring and assessing draft budgetary plans and ensuring
the correction of excessive deficit of the Member States in the euro area**

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on common provisions for monitoring and assessing draft budgetary plans and ensuring the correction of excessive deficit of the Member States in the euro area

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 136 in combination with Article 121(6) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Central Bank,

After transmission of the draft legislative act to the national Parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The Treaty requires that Member States' regard their economic policies as a matter of common concern and that their budgetary policies are guided by the need for sound public finances and that their economic policies do not risk jeopardising the proper functioning of Economic and Monetary Union.
- (2) The Stability and Growth Pact, in particular Regulations (EC) No 1466/97 of 7 July 1997 on the strengthening of the surveillance of budgetary positions and the surveillance and coordination of economic policies¹ and Council Regulation (EC) No 1467/97 of 7 July 1997 on speeding up and clarifying the implementation of the excessive deficit procedure², designed to secure budgetary discipline across the Union, sets out the framework for preventing and correcting excessive government deficits. It has been further strengthened by Regulation No .../2011 of the European Parliament and of the Council amending Regulation (EC) No 1466/97 on the strengthening of the surveillance of budgetary positions and the surveillance and coordination of economic policies and Regulation (EU) No .../2011 amending Regulation (EC) No 1467/97 on speeding up and clarifying the implementation of the excessive deficit procedure. Regulation (EC) No .../2011 of the European Parliament and of the Council on the effective enforcement of budgetary surveillance in the euro area added a system of effective, preventive and gradual enforcement mechanisms in the form of financial sanctions for the Member States whose currency is the euro.

¹ OJ L 209, 2.8.1997, p. 1.

² OJ L 209, 2.8.1997, p. 6.

- (3) The amendments to the Stability and Growth Pact increase both the guidance, and, for the Member States whose currency is the euro, incentives for the setting and the implementation of a prudent budgetary policy, while avoiding excessive government deficits. These provisions have created a more robust framework at the level of the Union for the surveillance of national economic policies.
- (4) The Treaty allows the adoption of specific measures in the euro area which go beyond the provisions applicable to all Member States in order to ensure the proper functioning of the Economic and Monetary Union.
- (5) Strong public finances are best ensured at the planning stage and gross errors should be identified as early as possible. Member States should benefit not just from the setting of guiding principles and budgetary targets but also from a synchronised monitoring of their budgetary policies.
- (6) Setting-up a common budgetary timeline for Member States whose currency is the euro should better synchronize the key steps in the preparation of national budgets, thus contributing to the effectiveness of the European semester for budgetary policy coordination. Adopting a common budgetary timeline should lead to stronger synergies by facilitating policy coordination among Member States whose currency is the euro and ensure that the Council and Commission recommendations are appropriately integrated in the national process for budget adoption.
- (7) There is strong evidence showing the effectiveness of rules-based fiscal frameworks in supporting sound and sustainable fiscal policies. The introduction of national fiscal rules that are consistent with the budgetary objectives set at Union level should be a crucial element to ensure the respect of the Stability and Growth Pact provisions. In particular, Member States should put in place structural balanced budget rules which transpose into national legislation the main principles of the Union fiscal framework. This transposition should be effective through binding rules preferably of a constitutional nature so as to demonstrate the strongest commitment of national authorities in relation to the Stability and Growth Pact.
- (8) Biased and unrealistic macroeconomic and budgetary forecasts can considerably hamper the effectiveness of budgetary planning and consequently impair commitment to budgetary discipline. Forecasts from independent bodies can provide unbiased and realistic macroeconomic forecasts.
- (9) This gradually strengthened surveillance will further complement the existing provisions of the Stability and Growth Pact and strengthen the surveillance of budgetary discipline in Member States whose currency is the euro. A gradually enhanced monitoring procedure should contribute to better budgetary outcomes to the benefit of all Member States whose currency is the euro. As part of a gradually strengthened procedure, a closer monitoring is particularly valuable to Member States that are subject to an excessive deficit procedure.
- (10) As demonstrated by the sovereign debt crisis, and in particular by the need to put in place common financial backstops, Member States whose currency is the euro share enhanced spillovers from their budgetary policy. Each of the Member States whose currency is the euro should consult the Commission and other Member States whose currency is the euro before the adoption of any major fiscal policy reform plans with

potential spillover effects, so as to give the possibility for an assessment of possible impact for the euro area as a whole. They should consider their budgetary plans to be of common concern and submit them to the Commission for monitoring purposes in advance of the plans becoming binding. The Commission should be in a position, if necessary, to adopt an opinion on the draft budgetary plan, that the Member State and in particular budgetary authorities should be invited to take into account in the process of the budget law adoption. Such an opinion should ensure that Union's policy guidance in the budgetary area is appropriately integrated in the national budgetary preparations. In particular, this opinion should include an assessment of whether or not the budgetary plans appropriately address the recommendations issued in the context of the European semester in the budgetary area. The Commission should stand ready to present this opinion to the Parliament of the Member State concerned at its request. The extent to which this opinion has been taken into account should be part of the assessment, if and when the conditions are met, leading to the decision to place the concerned Member State in excessive deficit procedure, where no follow-up to the early guidance from the Commission should be considered as an aggravating factor. Also, based on an overall assessment of the plans by the Commission, the Eurogroup should discuss the budgetary situation and prospects for the euro area.

- (11) Member States whose currency is the euro and which are subject to an excessive deficit procedure should be monitored more closely to secure a full and timely correction of the excessive deficit. A closer monitoring should ensure early correction of any deviations from the Council recommendations to correct the excessive deficit. Such monitoring should complement the provisions set out in Regulation (EC) No 1467/97. The modalities of this closer monitoring should be graduated depending on the stage of the procedure the Member State is subject to, as provided for in Article 126 of the Treaty.
- (12) The closer monitoring for Member States subject to an excessive deficit procedure should allow the identification of risks in the compliance of a Member State's deadline to correct the excessive deficit. In the event of such risks being identified, the Commission should issue a recommendation to the Member State for measures to be taken within a given timeframe that should be presented to the Parliament of the Member State concerned at its request. This assessment should allow rapid correction of any developments putting at risk the correction of the excessive deficit within the established deadline. Assessment of compliance with this Commission recommendation should be part of the continuous assessment made by the Commission of effective action to correct an excessive deficit. When deciding whether effective action to correct the excessive deficit has been taken, the Council should also base its decision on whether or not the Member State complied with the Commission recommendation.
- (13) In order to enhance the dialogue between the Union institutions, in particular the European Parliament, the Council and the Commission, and to ensure greater transparency and accountability, the competent committee of the European Parliament may offer the opportunity to the Member State concerned by a Commission recommendation to participate in an exchange of views,

HAVE ADOPTED THIS REGULATION:
